

Industrial Flood Protection

Kendal Business Park, Kendal

Products: Lakeside Demountable Flood Barriers, Brick Defence, Sewage Defence

Completion Date: September 2017

The industrial units in Kendal Business Park suffered devastating damage with significant commercial impact during the 2015 Cumbria floods.

Lakeside were selected to survey, manufacture and install their flood defence products to the entire business park, comprising mainly flood barriers to various individual and roller shutter openings, and associated brick and sewage defence ancillary flood defence items as required.

Bespoke features:

- Quick turnaround, including surveys conducted within one working week from enquiry
