

FREMLIN WALK SHOPPING CENTRE Maidstone, Kent

Product: Lakeside Demountable Aluminium Flood Barrier System, 900mm - 1200mm H

Completion Date: January 2017

The site was flooded on 25th December 2013 as a result of the River Medway bursting its banks.

Lakeside Demountable Flood Barrier was the preferred option due to its simplicity yet proven effectiveness, and its flexible suitability to all potential routes of water entry.

We needed to make sure that the flood barriers met our requirements, and that the company installing them had the expertise to design and install an effective solution.

We would highly recommend Lakeside as we were extremely pleased with the end result.

Lloyd Wright | Centre Manager, Fremlin Walk Shopping Centre
CBRE Management Services Ltd

Client:

The world's largest commercial real estate services and investment firm.

In association with:

Commercial Building Surveying Consultants in Europe.

And:

A premier Global Consultancy firm, trusted by clients to manage their most challenging environmental issues.

Bespoke Project features:
